SACENDU East London Data (N=71)

Population Profile: Gender

Population Profile: Ethnicity (%)

Primary Substance of Use (%)

Summary of Key Findings

- TIK use on the increase
- Cannabis and alcohol remain popular
- Under 20 = Cannabis still most abused substance, but TIK on the rise in this age group.
- In-patient treatment numbers rising steadily (still have a waiting list for indigent service users).
- Community Development programme growing in strength:
- 4 Community Anti Drug Coalitions running projects – Sports groups, Environmental clean-ups, After school learner support centres, Skills development programmes (Sewing), Community garden.
- EL has the very first Youth led Anti-Drug Coalition on the African Continent.

THANK YOU!!!
