

56TH SACENDU IN-PERSON SYMPOSIA

22 – 31 October 2024

The South African Medical Research Council's Mental Health, Alcohol, Substance Use and Tobacco Research Unit is delighted to invite you to join us for a series of exciting events that we have planned for the 56th SACENDU in-person Symposia 2024. We will be sharing feedback for the reporting period of January to July 2024.

The SACENDU Symposium offers an opportunity for networking among key role players and partners within the field of substance use and misuse. We provide insights into new and emerging drug trends, identify problem areas, and disseminate key regional epidemiological findings for South Africa. The Symposium is a platform through which empirical research, clinical findings and new developments are shared and generates timely data that informs strategic decisions.

Below is the full schedule of events:
