

# OVER 20 YEARS OF FEMICIDE RESEARCH IN SOUTH AFRICA

The Gender and Health Research Unit  
of the South Africa Medical Research Council  
invites you to join us for the launch of  
**fourth South African National Femicide Study  
Findings** and a discussion of the implications for  
preventing femicide in South Africa.

**10 October 2024**  
10:00 – 12:30

[Join the meeting now](#)

The event will feature a presentation on 22 years of femicide research in South Africa by **Prof. Naeemah Abrahams**. It also includes a **lived experience** account of losing a daughter to femicide, and discussions involving government officials, NGOs, and practitioners working to address Gender-Based Violence and Femicide (GBVF) in South Africa.
