# 58<sup>TH</sup> SACENDU

## IN-PERSON SYMPOSIA 2025

30 OCTOBER – 10 NOVEMBER 2025

The South African Medical Research Council's Mental Health, Alcohol, Substance Use and Tobacco Research Unit is delighted to invite you to join us for a series of exciting events that we have planned for the 58th SACENDU in-person Symposia 2025. We will be sharing feedback for the reporting period of January to June 2025.

The SACENDU Symposium offers an opportunity for networking among key role players and partners within the field of substance use and misuse. We provide insights into new and emerging drug trends, identify problem areas, and disseminate key regional epidemiological findings for South Africa. The Symposium is a platform through which empirical research, clinical findings and new developments are shared and timely data that informs strategic decisions are generated.

### Part 1

**Thurs, 30 Oct 2025 – Gauteng (Pretoria)**

SAMRC Pretoria
