

HOW TO USE THE DASHBOARD: OVERVIEW

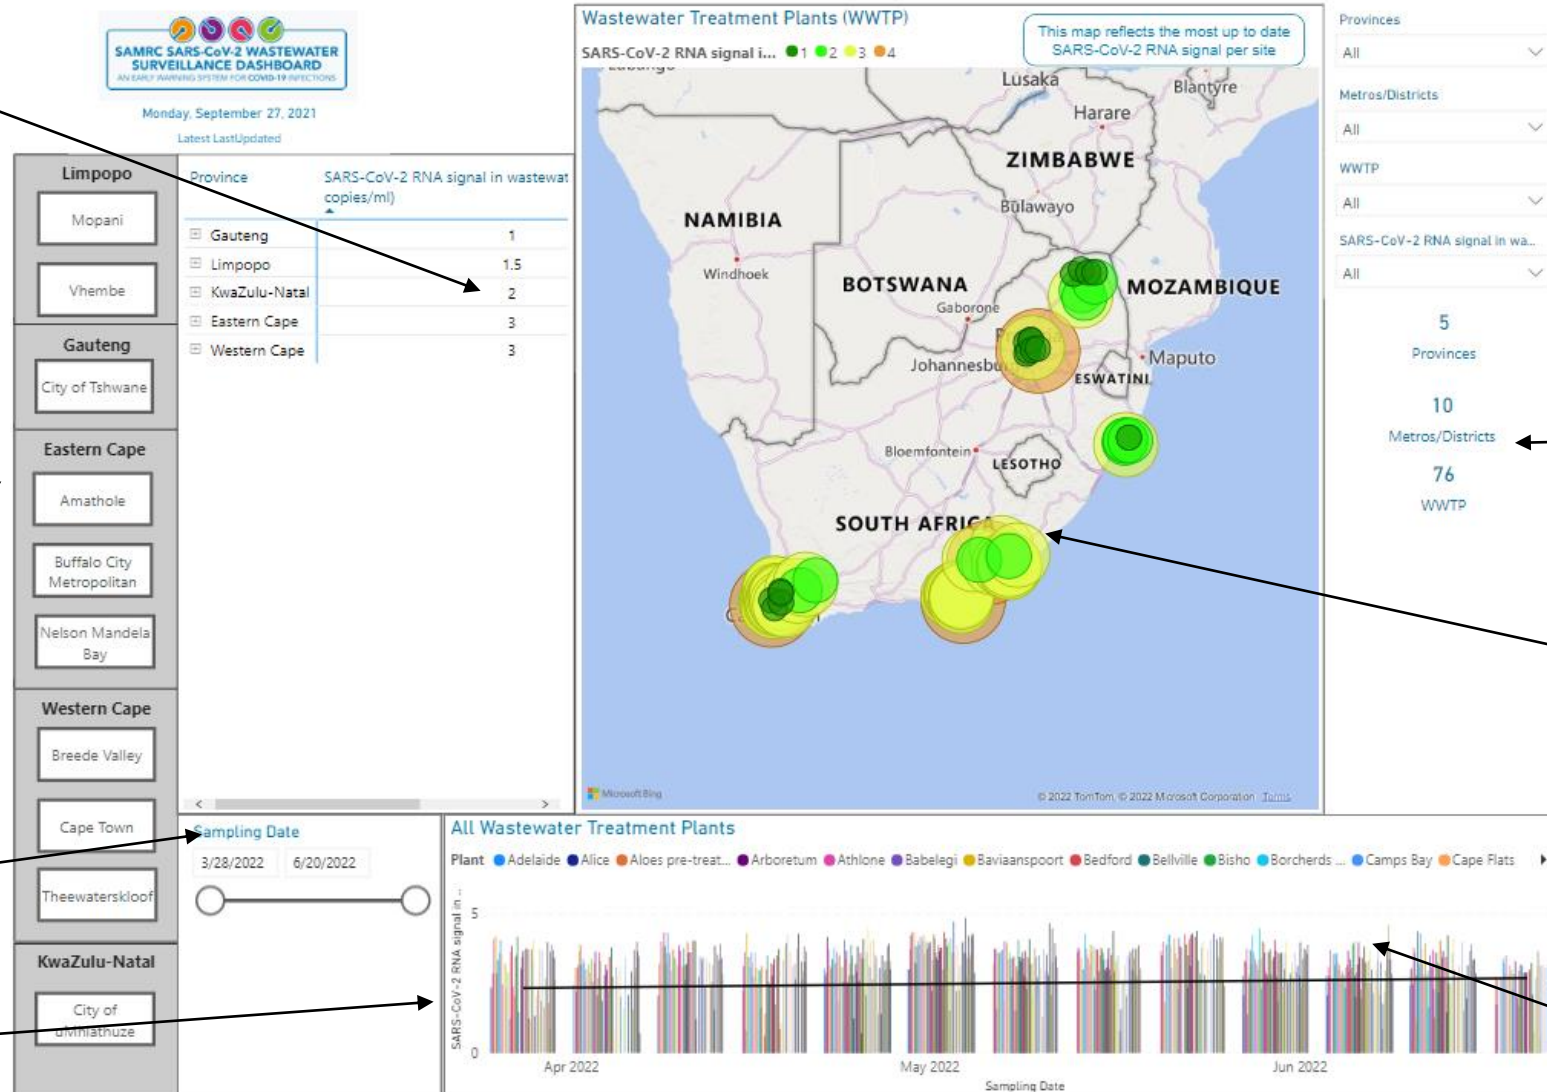

Average SARS-CoV-2 RNA signal (Log10 copies/ml)

Select Province, Metro/district, WWTP or SARS-CoV-2 Log10 value from drop down to list to filter results

Indicates number of Provinces, Metro/districts and WWTPs on the dashboard

Interactive map displays the geographic locations of the WWTPs

The landing page shows a combination of data. This section becomes relevant when you filter by individual WWTP

Select the municipality to view results.

Adjust sampling date
